by one person

Closed for the road. Open on site.

Closed

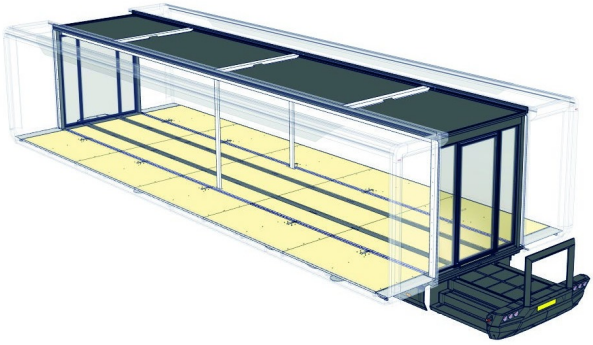

Towed on its own chassis.

13.6 m long · 2.55 m wide · 3.84 m high

Open

Sides out, standing on its own support legs.

15.02 m long · 4.88 m wide · 62 m² of floor

Renders of the standardized platform. Photographs: the unit delivered to Norfolk, Virginia.

The platform, in figures.

Closed	13.6 m long, 2.55 m wide and 3.84 m high (44 ft 7 in × 8 ft 4 in × 12 ft 7 in), towed on its own chassis.
Open	15.02 m long and 4.88 m wide (49 ft 3 in × 16 ft), standing on its own support legs.
Inside	13.18 m by 4.81 m, on one level.
Floor area	62 m² (667 sq ft) open, on one level.
Ceiling height	2.33 m to 2.62 m (7 ft 8 in to 8 ft 7 in).
On arrival	It stands on its own support legs and the sides open out, from 8 ft 4 in wide to 16 ft. About 15 minutes, by one person.

Published figures for the standardized platform. Final dimensions and weights are confirmed in each unit’s specification.

One platform. Your interior.

Included in every unit

- A 45-foot expandable trailer, towed on its own chassis
- Sides that open from 8 ft 4 in to 16 ft
- 62 m² (667 sq ft) of open floor on one level
- Set up by one person in about 15 minutes
- Lighting, air conditioning and power
- Access stairs, set up at the doors once the side sections are open

Specified per application

- Interior layout and furniture
- Glazing, doors and finishes
- Livery: the body, the glass and the interior walls can take a full wrap
- Equipment fit-out and service connections
- Entrance steps and a roof deck

Services and connections.

Services	Lighting, air conditioning and power, planned around equipment loads and site connections.
When it opens	Glazed doors, lighting, air conditioning and power are in place.
Site connections	Power and data connections are planned with each site. The interior is fitted to your brief.
Clinical fit-outs	Review equipment loads, ventilation and site connections together. An imaging fit-out may also require shielding, operator space and a route for bringing the scanner in.

Buy, lease, rent or have Vatoris operate it.

Buy

Purchase a unit configured for your service and owned by your organization.

Lease

A longer-term agreement for a dedicated unit and an agreed equipment specification.

Rent

A unit for a defined period, from temporary capacity to a touring program.

Vatoris-operated

We agree the staffing, equipment, locations and responsibilities with you for the program.

37 clinical configurations.

And 8 other applications, on the same platform.
